

Twin Shaft Shredder

DESCRIPTION

Twin Shaft Shredder is major for crushing the large-sized plastics & rubber object or other irregular-type object, such as pallet, timber, waste tire and waste cable etc. It is effective to reduce the volume of broken objects and enhance the working efficiency of the shredder.

FEATURES

- Twin Shaft Shredder is major for shredding the large-sized plastics & rubber object or other irregular-type object, such as pallet, timber and waste tire etc.
- It's effective for reducing object volume to increase granulator working efficiency.
- Twin shaft multi claw type rotary cutter, strong shredding capability and even shreds.
- Large torque, no vibration and low noise.
- Attach PLC auto control for easy operation and safe.

SPECIFICATIONS

MODEL	STS75-63	STS100-63	STS120-63	STS150-74
Crushing Room	750×630 mm	1000×630 mm	1200×630 mm	1500×740 mm
Power	20~30HP	20~40HP	20~30HP	40~50HP
Cutter	50t	50t	50t	50t
